

ROTARY TABLES

Global Drilling Solutions Inc can provide Rotary Tables from 17-1/2" up to 49-1/2".

The Pinion shaft and gears are made from high strength alloy steel which provides maximum wear resistance which prolongs the life expectancy of the Rotary Table.

Standard independent operated locking arm enables the gear table to be locked in a single direction or both directions.

Pin drive or Square drive Master Bushings along with Inserts can be provided on request.

Rotary tables manufactured under API 7K.
