

TRAVELING BLOCKS

Global Drilling Solutions Inc can provide traveling blocks to suit any size Drilling Rig requirements.

A.P.I. sheaves with hardened grooves are independently mounted on tapered roller bearings.

The Traveling blocks can be furnished unitized with any make hooks to provide a short compact design where required.

Features Include:

- Heavy duty fabricated main frame.
- Heavy duty wireline guards.
- Hardened A.P.I. wireline grooves.
- High strength steel Becket.
- Designed to A.P.I. Standard 8A.
